§ A423-19. Filing of applications.

Three sets of all application documents, including the application form and all plans and other data, must be filed.

§ A423-20. Acceptance of applications.

Applications shall be reviewed for completeness by the Building Official. Incomplete applications shall be returned to the applicant by the Building Official within seven working days of receipt. Complete applications, together with all maps, plans and other data, shall be accepted by the Building Official and forwarded to the HDC. - B. Extensions. Within this forty-five-day period the HDC may make written findings of fact stating that the application for a certificate of appropriateness requires further time for study and/or to obtain additional information. In such case the HDC shall have a period of up to 90 days from the date of acceptance of a completed application within which to act on such application.

§ A423-25. Modifications to application.

A pending application for a certificate of appropriateness may be modified by a written request from the applicant to the HDC. Such request shall include a description of the proposed change and additional and/or revised documentation. If an application is modified, it shall be considered a new application for a certificate of appropriateness.

§ A423-26. Modifications to certificate of appropriateness.

Changes to a project after a certificate of appropriateness has been issued shall require a new application for a certificate of appropriateness. The new application shall be submitted before construction of the changes begins, unless the HDC determines at a new preapplication conference that a full application is not required. Any changes not so approved shall be deemed a violation.

Article VII. Enforcement

§ A423-27. Enforcement.

Provisions and requirements of certificates of appropriateness granted by the HDC shall be enforced by the Building Official.

§ A423-28. Procedures.

- A. Any person may report an alleged violation to the HDC.
